Happy Anniversary

YOUTH RESEARCH JOURNAL

October 26, 2023 - October 26, 2024

YRJ Start from zero and scratch within 2 weeks of plans, now I can't handle this much craziness. I coded the CMS, designed the whole graphics, wrote the entire social media posts, and already taught Research 101 to 350+ students.

-- Sanaul Haque

(President, Lead Researcher, & Mentor at YRJ)

Youth Research Journal

yrjournal.org

Youth Research Journal aspire to promote young researchers and writers by walking them through the standard procedures of publishing a research article; that is, delivering a manuscript, editing & peer-review, and finally acceptance or rejection. Through our yearly-issues, we hope to bring the hard work of those writers to light while also providing a constant stream of quality, entertaining, and highly scrutinized content for readers hungry for explore. These articles, however, are but an initial spark that encourages readers to go beyond and delve more deeply into their topics of interest on their own, advertising independent research and self-learning.

Certification

Participation certificates will be issued only to individuals who submit the feedback form on time; those who fail to do so will not receive a certificate.

Recommendation letters will be provided solely to individuals (or Group) who submit a research proposal, we issue letters of recommendation for personalized research projects only.

Upon completion of the program, participants who submit both the final paper and presentation will be eligible for awards and an achievement certificate.

Reviews

After each assignment, we provide detailed reviews, constructive feedback, and deliver a plagiarism report for both individual and group submissions.

✓ iThenticate Page 2 of 11 - Integrity Overview

33% Overall Similarity

The combined total of all matches, including overlapping sources, for each database.

Match Groups

- 20 Not Cited or Quoted 17% Matches with neither in-text citation nor quotation marks
- 7 Missing Quotations 15% Matches that are still very similar to source material
- 2 Missing Citation 2% Matches that have quotation marks, but no in-text citation
- 0 Cited and Quoted 0% Matches with in-text citation present, but no quotation marks

Integrity Flags

0 Integrity Flags for Review

No suspicious text manipulations found.

Top Sources

- | | |

| 31% | Internet sources |
| 29% | Publications |
| 0% | Submitted works (Student Papers) |

Our system's algorithms look deeply at a document for any inconsistencies that would set it apart from a normal submission. If we notice something strange, we flag it for you to review.
A flag is not necessarily an indicator of a problem. However, we'll recommend you focus your attention there for further review.

Literature Review:

Human hepatitis B vaccines are presently prepared using hepatitis B surface antigen (HBsAg) that is purified from the plasma of human carriers of hepatitis B virus infection. The preparation of hepatitis B vaccine from a human source is restricted by the available supply of infected human plasma and by the need to apply stringent processes that purify the antigen and render it free of infectious hepatitis B viruses and other possible living agents that might be present in the plasma [1]. Research has shown that developing an edible vaccine using genetically modified yeast to produce the hepatitis B surface antigen (HBsAg) is an innovative approach that combines the advantages of yeast expression systems with the convenience of oral vaccination.

Prizes/Awards

YRJ Summer Research Program 2025 will get the following researcher awards recognition with

 **Gold 1**

 **Silver 1**

 **Bronze 1**

Computational Biology (Self Paced)

Machine Learning (Self Paced)

Previous Prizes: <https://yrjournal.org/awards>

You need to fill out feedback form for getting Participating certificate

Participation e-Certificate at : <https://verify.yrjournal.org>

The achievement certificate will be delivered after the award declaration.

All the awards are subject to any individual or all the group members if they chose the group to participate.

Thank You

Wish you all the best for your future.

See you!

Always spread the positivity.
Work hard for you and humanity.
Be humble to everyone.
Your hard work always paid off one day.

This is your start of becoming a scientist,
and be happy you start this journey alone
and you learn something that really helps
you to skill up yourself in many areas.

**Join our community of 350+ young
researchers, with our students accepted into
top universities.**
